

Tejon ranch

Drive along the I-5 to hwy 138 eastbound towards Lancaster. Drive for approximately 30 minutes to 300th St W. Take 300th St W. North and turn right on dirt road labelled with an upside down boot on the post. Turn left back onto hwy 290. Continue North to entrance. Once inside Tejon Ranch, turn right and follow road through an unlocked gate. Follow road for approximately 5 kilometers past a Joshua tree patch. Once at a second Joshua tree patch, slow down. *Ephedra californica* should be visible from the road. Pull off on the next road that forks left.

Fort Irwin

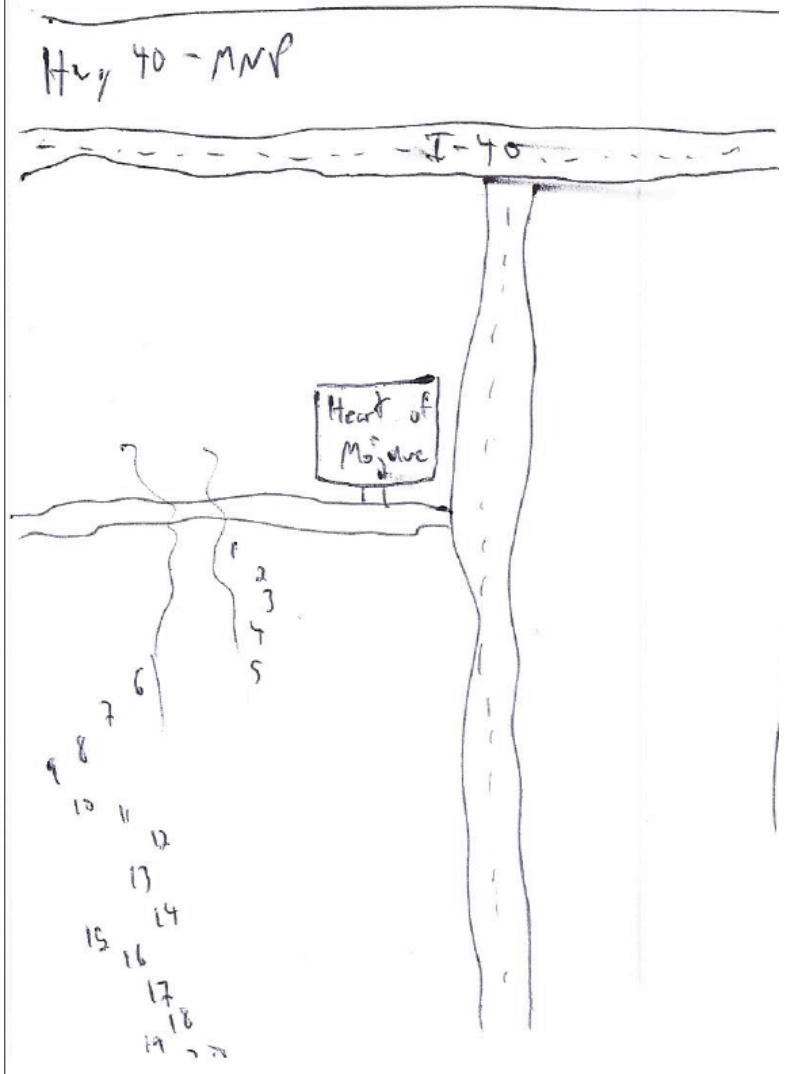

Head to Barstow, CA along the I-15. Take Fort Irwin Rd. North towards Fort Irwin. After driving for approximately 20 minutes, starbright road should be on the right. There is a large building (rental company) visible from the opposite site and the only landmark in the area. Exit on should and take one of the entrances into the dirt road. There is a house further up, the site is before that, still in BLM territory. There should be a longer road that leads down to an refinery of some kind. Where the refinery road meets the dirt road that runs parallel with the hwy is where the first shrubs are. Ephedra should be easily visible from this fork.

MNP

Take I-40 towards Needles, CA.
Exit on Kelbaker Road exit and
head south.

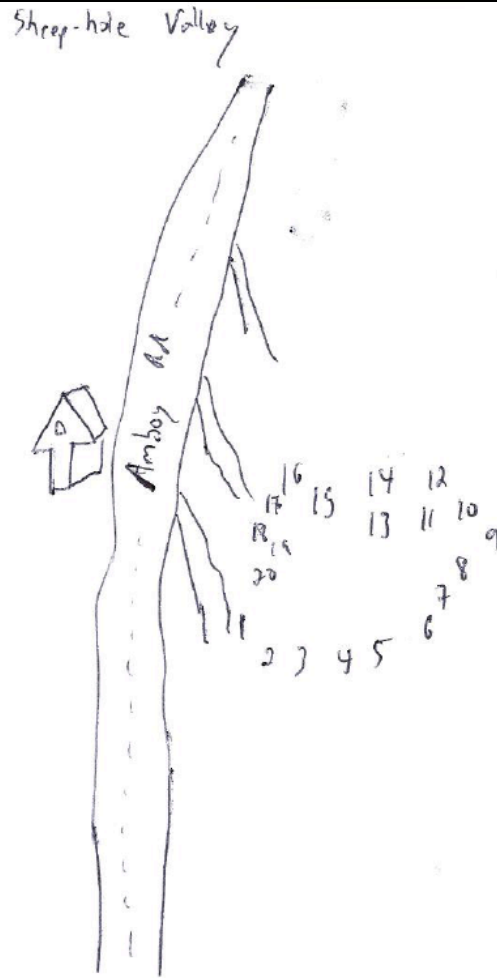

There are two BLM signs that say
"Heart of Mojave", turn right on
the one that is on the right. Follow
the road down the natural gas
extraction unit. 500 meters past
the gas extraction, there is a dip
in the road where there is a desert
wash. The wash denotes the
beginning on the site.

Sheephole Valley Wilderness

Continue down Amboy Road from Kelbaker. Notable landmarks include a salt-extraction plant, a small mountain pass and a rock with lots of graffiti.

On the descent outside of the mountain (south facing) there should be no resemblance of people living. There will be multiple pullouts on the left side of the road. Turn on the one directly across from the only house in the area. If you are in an area with many dilapidated houses, you have gone too far.

**Panoche Hills**

Enter Panoche Hills and drive up the main access road. Follow gravel road past the parking area and turn right at the fork. There will be a dirt road denoted by a sign that says P-8. Turn left on it. Follow the dirt road for 100 meters or until you see shrubs with red flagging tape.
